Violence, War, Magic & the Supernatural

The fictional worlds of Rifts® are violent, deadly and filled with aliens, war and supernatural monsters. Other-dimensional beings often referred to as “demons,” torment, stalk and prey on humans. Alien life forms, monsters, vampires, ghosts, ancient gods and demigods, as well as magic, insanity, psychic powers and combat are all elements in this book. All of it is fiction.

Some parents may find the violence, magic and supernatural elements of the game inappropriate for young readers/players. We suggest parental discretion.

Please note that none of us at Palladium Books® condone or encourage the occult, the practice of magic, the use of drugs, or violence.

Dedication from Matthew

To every scientist, researcher, engineer, programmer, software developer, teacher and academic carrying us forward into the future. Your hard work turns science fiction into reality, and thanks to you I truly believe that we are already at least twenty years into the Golden Age of Man. Dreaming about the future is one thing; making it happen is another matter entirely.

– Matthew Clements, February 2014

Dedication from Kevin

To the most beautiful and gentle soul I have ever known, Kathy Simmons, my true love. Somehow, even when the storm clouds gather, you make every day seem beautiful, sunny and joyful. Thank you for making me laugh so much. Thank you for being you. I love you with all my heart.

– Kevin Siembieda, February 2014

The cover, by John Zeleznik, depicts the Northern Gun Robodome. The battleground where robot gladiators fight for money, fame and glory, and to the enjoyment of arena spectators and the millions of fans who watch live telecasts from Michigan and Lazlo, and throughout the Coalition States.
